CHAPTER I GENERAL PROVISIONS

Article 1 (Purpose)

CHAPTER I GENERAL PROVISIONS The purpose of this Ordinance is to prescribe matters delegated by the Act on the Improvement of Urban Areas and Residential Environments, the Enforcement Decree of the same Act, and the Enforcement Rule of the same Act, as well as those necessary for the enforcement thereof.

Article 2 (Definitions)

The terms used in this Act are defined as follows:

1. The term "specific unlicensed structure" means any "unlicensed building, etc. existing as of January 24, 1989" referred to in Article 5 of the Addenda to the Enforcement Rule of the Act on Acquisition of and Compensation for Land, etc. for Public Works Projects (Ordinance of the Ministry of Construction and Transportation No. 344);
2. The term "newly appeared unlicensed structure" means any unlicensed structure other than the specific unlicensed structures defined in subparagraph 1;
3. The term "base date of a management and disposal plan" means the end date of the period for filing applications to purchase a building site or unit referred to in Article 72 (1) 3 of the Act on the Improvement of Urban Areas and Residential Environments (hereinafter referred to as the "Act");
4. The term "value of right" means the total value of the former land, etc. computed pursuant to Article 36 (3) as at the base date of a management and disposal plan;
5. The term "dwelling density" means the number of buildings built per hectare of an improvement zone, as an indicator of the degree of concentration of buildings; and shall be calculated according to the following criteria:
 - (a) In cases of multi-family housing, one household with separate ownership which is, as a structure in which independent residential life can be enjoyed, located on the floor where the largest number of households exists, shall be deemed one building; and the number of households on the remaining floors shall not be counted therein;
 - (b) Newly appeared unlicensed buildings shall be excluded from the counting of the number of buildings;
 - (c) Areas of parks to be remained or of parks where projects are completed and areas of schools to be remained shall be excluded from the area of an improvement zone;
 - (d) Where the construction of any detached houses or multi-unit houses are completed and then converted into multi-household houses, the dwelling density shall be computed notwithstanding the registration of divided ownership of multi-household houses, according to the number of buildings existed before such conversion;
 - (e) Where it is necessary to rearrange the locations of any existing factories in a semi-industrial area due to implementation of an improvement project, the dwelling density shall be computed excluding the areas of factory sites and factory buildings from the area of the improvement zone;
 - (f) In cases of a non-residential building, 90 square meters per building area shall be construed as one building, and numbers below the decimal point shall be cut off;
6. The term "change of the method of implementing a project" means a change of the method of implementing an improvement project pursuant to Article 123 (1) of the Act or Article 14 of the Addenda to the Act on the Improvement of Urban Areas and Residential Environments (Act No. 6852);
7. The term "non-homeowner householder" means the head of a household, in the case of which none of its members (including the spouse of the householder and household members who form the same household with the householder, who are not listed in

the same resident registration card with the householder) including the householder, owns any house;

8. The term "structure unapproved for use" means a virtually completed structure that has obtained building permit, etc. pursuant to the relevant statutes or regulations but has failed to obtain approval of use, approval of completion, etc.;

9. The term "undersized lot of land" means any land smaller than 90 square meters;

10. The term "road contact rate of houses" means a rate calculated by dividing the total number of floors of buildings on sites that boarder at least four meters on at least four-meter-wide roads by the total number of floors of the buildings within an improvement zone, which is an indicator for determining whether there is a shortage of fundamental infrastructure under subparagraph 1 (e) of attached Table 1 related to Article 7 (1) of the Enforcement Decree of the Act on the Improvement of Urban Areas and Residential Environments (hereinafter referred to as the "Decree"): Provided, That in cases of a dead-end road which is at least thirty-five meters long, the width shall be six meters;

11. The term "base date for determining the right" means the base date for determining the right to purchase a unit of structure under Article 77 of the Act, which is the date on which a public notice is made pursuant to Article 16 (2) of the Act or the date separately determined by the Mayor before designating and publicly notifying an improvement zone following the formulation of a master plan to control speculation;

12. The term "residential area preservation project" means a project implemented in a redevelopment zone (referring to an improvement zone in which a redevelopment project is implemented; hereinafter the same shall apply) to construct rental housing, including the improvement, construction, etc. of buildings, to preserve the characteristics of the relevant residential area such as the geographical features, grounds, alleys and life-style and to invigorate the village community.

Article 3 (Classification of Redevelopment Projects)

The redevelopment projects defined in subparagraph 2 (b) of Article 2 of the Act shall be classified as follows:

1. Housing improvement-type redevelopment projects: Redevelopment projects implemented to improve residential environments in an area where fundamental infrastructures are poor and dilapidated and substandard structures are clustered;
2. Urban improvement-type redevelopment projects: Redevelopment projects implemented to improve urban environments, including restoration of urban functions and activation of commercial power in a commercial area, industrial area, etc.

Article 4 (Dilapidated or Substandard Structures)

(1) The criteria for determining a structure as a dilapidated or substandard structure under Article 2 (3) 1 of the Decree shall be as follows:

1. Multi-family housing:

(a) Multi-family housing with reinforced concrete, steel framed concrete, steel framed reinforced concrete, or steel structure: The period specified in attached Table 1;

(b) Multi-family housing other than those referred to in item (a): 20 years;

2. Structures other than multi-family housing:

(a) Structures with reinforced concrete, steel framed concrete, steel framed reinforced concrete, or steel structure (excluding detached houses under subparagraph 1 of attached Table 1 of the Enforcement Decree of the Building Act: 30 years;

 - (c) An area where the dwelling density is at least 60.
- (2) An improvement zone shall be designated in accordance with the master plan to improve urban and residential environments established under Article 4 of the Act in addition to the requirements for the area eligible to formulate an improvement plan prescribed in paragraph (1).
- (3) Notwithstanding paragraph (1), where it is deemed necessary for the standardization of sites, securement of efficient infrastructure, etc. pursuant to subparagraph 4 of attached Table 1 under Article 7 (1) of the Decree, an improvement plan may be formulated up to 110/100 of the size of the area eligible to formulate the improvement plan after deliberation by the Urban Planning Committee of the Seoul Metropolitan Government.
- (4) "Area prescribed by City/Do ordinance" in subparagraph 3 (d) of attached Tale 1 under Article 7 (1) of the Decree means at least 10 thousand square meters: Provided, That if an existing individual housing complex is at least 10 thousand square meters, an improvement plan shall be formulated only where it is deemed necessary for the standardization of sites, securement of the efficient infrastructure, etc. after deliberation by the Urban Planning Committee of the Seoul Metropolitan Government.
- (5) An urban improvement-type redevelopment zone (referring to a zone where an urban improvement-type redevelopment project is implemented; hereinafter the same shall apply) in a station's sphere of influence referred to in subparagraph 2 (f) of attached Table 1 under Article 7 of the Decree, shall be established for each of the following areas:
 1. A station's sphere of influence refers to an area which falls below the district center in the district central system of an urban/Gun master plan under subparagraph 3 of Article 2 of the National Land Planning and Utilization Act, in areas within a radius of five hundred meters from the boundary of a platform of a railway station;
 2. Notwithstanding subparagraph 1, any of the following areas shall be excluded from a station's sphere of influence: Provided, That this shall not apply to cases deemed inevitable after deliberation by the Urban Planning Committee of the Seoul Metropolitan Government:
 - (a) An area abutting on an exclusive residential area, urban natural park, neighborhood park, natural scenic district, or maximum height limited district; (excluding the maximum height limited district around the Kimpo Airport);
 - (b) A focused landscape management area, a hilly area, and an area where the Standards for Creation of Landscape of Hangang River Axis apply according to a landscape plan referred to in Article 7 of the Landscape Act;
 3. An area where the number of dilapidated and substandard structures is at least 60 percent of the total number of structures in the eligible area.

Article 7 (Matters to Be Surveyed and Ascertained when Formulating Improvement Plans)

"Other matters specified by City/Do ordinance" in Article 7 (2) 7 of the Decree means the following:

1. The status of residing households and tenants;
2. The status of the land use plan specified in an urban management plan;
3. The status of land by use, by owner, and by size;
4. The status of permits for structures, and the dilapidation and substandard status of the structures;
5. The status of structures by use, by structure, by size, and by year elapsed after construction (completion of construction);
6. Tangible and intangible cultural relics and the status of protected trees in the improvement zone, and the origin of the area;
7. The status of obtaining consents (limited to cases of proposal by residents) to the designation of the improvement zone, from the owners of a plot of land or structure defined in subparagraph 9 of Article 2 of the Act (hereinafter referred to as "owners of a plot of

land or structure");

8. The status of existing trees;

9. Opinions of residents (the owners of a plot of land or structure and tenants) on designating the zone;

10. The sizes of the housing units which the owners of a plot of land or structure wish to purchase, and their intention to bear financial burdens;

11. Whether tenants intend to move into rental housing units and the sizes of the rental housing units which they wish to move into;

12. Opinions of the owners of a plot of land or structure on omitting the stage of organizing a committee for promoting the establishment of an association (hereinafter referred to as "promoters' committee") pursuant to Article 31 (4) of the Act.

Article 8 (Contents of Improvement Plan)

(1) "Other matters specified by City/Do ordinance for efficiently implementing improvement projects" in Article 8 (3) 11 of the Decree means the following:

1. Plans relating to households or lots;

2. Plans relating to the construction of rental housing [the head of an autonomous Gu (hereinafter referred to as the head of a "Gu") may formulate a plan for the construction of rental housing for college students and young people in the neighborhood of a university or college and in an improvement zone located in a station's sphere of influence];

3. Matters concerning the development of income sources of residents (limited to residential environment improvement projects);

4. Results of an environmental review (Article 27 (2) of the National Land Planning and Utilization Act shall apply mutatis mutandis hereto);

5. The status and utilization plan of existing trees;

6. Plans to accommodate the population and housing;

7. Plans to invigorate residents' community for the management of residential environment (limited to management-type residential environment improvement projects);

8. Plans to preserve and utilize old paths, old waterways, and historic and cultural resources, including architectural assets and traditional Korean-style houses named Hanok, defined in Article 2 of the Act on Value Enhancement of Hanok and Other Architectural Assets.

(2) Other necessary details of an improvement plan shall be as follows:

1. In principle, no improvement zone shall include existing parks or green areas: Provided, That this shall not apply where it is necessary to restore the functions of the parks or green areas, to improve structures therein, or to promote the land use;

2. Plans to improve or ameliorate existing structures under Article 8 (3) 5 of the Decree shall be formulated categorizing them into retention, repair, new construction after removal, removal and relocation, etc., taking into consideration the aging years, uses, structures, sizes, locations, existence or nonexistence of permits, and the degree of dilapidation and substandard status of the structures;

3. Sites for religious facilities, and welfare facilities for sale shall be divided into lots if necessary, and shall secure appropriate access roads;

4. The time frames for implementing an improvement project under Article 9 (1) 9 of the Act shall be determined within four years from the date the designation of the improvement zone is publicly notified taking into consideration the preparation period for application for approval of the project implementation plan of each project implementer;

5. In cases of an urban improvement-type redevelopment project, it shall be a principle to formulate a multi-use construction plan to restore the characteristics of the improvement zone and the functions of the downtown area; and where there are any nearby structures, cultural assets or natural features, it shall be formulated to minimize the impact on the surrounding landscape.

Article 9 (Procedures for Safety Inspection and Bearing of Expenses)

(1) "Procedures for requesting a safety inspection ... and further details necessary for processing such request" in Article 10 (7) of the Decree shall be as follows:

1. Pursuant to the latter part of Article 10 (1) of the Decree, the head of a Gu may adjust the timing to conduct a safety inspection where the adjustment of the timing of a reconstruction project is deemed necessary;

2. Articles 49 through 51 shall apply mutatis mutandis to the reasons for adjusting the timing of a safety inspection, zones eligible for adjustment, data related to the adjustment of the timing, procedures and methods for adjusting the timing, and other relevant matters. In such cases, "improvement zone" shall be construed as "proposed improvement zone (referring to a proposed project zone where the relevant area is not a proposed improvement zone)"; and "approval of a project implementation plan or approval of a management and disposal plan" shall be construed as "safety inspection";

3. The Mayor of the Seoul Metropolitan Government (hereinafter referred to as the "Mayor") may separately determine detailed criteria necessary for the adjustment of timing not prescribed in relevant statutes, regulations and this Ordinance.

(2) If a person who falls under any subparagraph of Article 12 (2) of the Act intends to request a safety inspection, he or she shall submit a written request for safety inspection specified Article 3 of the Enforcement Rule of the Act on the Improvement of Urban Areas and Residential Environments (hereinafter referred to as the "Enforcement Rule") to the head of the competent Gu along with a form shown in the Enforcement Rule; and in such cases, the person requesting a safety inspection shall bear all the

expenses required for the safety inspection.

(3) Where the head of the competent Gu determines whether a safety inspection pursuant to Article 10 (1) of the Decree is conducted, and notifies the person who has requested the safety inspection, of such determination, such person shall deposit the expenses required for the safety inspection.

(4) Where a report on findings from a safety inspection is submitted pursuant to Article 13 (1) of the Act, the head of the competent Gu shall directly pay the expenses from the deposited amount and settle the remaining expenses with the person who has requested the safety inspection.

(5) Article 37 of the Special Act on the Safety Control and Maintenance of Establishments shall apply mutatis mutandis to the matters concerning the calculation of expenses under paragraph (2).

Article 10 (Proposals to Formulate Improvement Plans)

(1) When proposing the formulation of an improvement plan to the head of a Gu pursuant to Article 12 (1) of the Decree, in cases falling under Article 14 (1) 1 through 5 of the Act, consents from at least 60 percent of the owners of a plot of land or structure or at least one half of the area of land located in the relevant area shall be obtained.

(2) In cases of a management-type residential environment improvement project, the formulation of an improvement plan may be proposed to the head of the competent Gu after obtaining consents from a majority of the owners of a plot of land or structure, notwithstanding paragraph (1).

(3) When the owners of a plot of land or structure propose to formulate an improvement plan pursuant to Article 14 (1) of the Act, a written application for proposal for formulation specified in the Enforcement Rule to the head of the competent Gu, along with documents on the improvement plan and an explanatory statement of the plan under Article 12 (1) of the Decree, and details surveyed at the time an improvement plan is formulated pursuant to each subparagraph of Article 7, and other necessary documents.

(4) Where an amendment to an improvement plan is requested pursuant to Article 14 (1) 6 of the Act, cases where the amendment is adopted with the affirmative votes of at least 2/3 of the owners of a plot of land or structure at a general meeting (including a general meeting of residents), as well as where written consents to the amendment are obtained directly, shall also be deemed to have obtained consents from at least 2/3 of the owners of a plot of land or structure.

(5) Methods, etc. for counting the number of owners of a plot of land or structure to consent to formulate an improvement plan shall be subject to Article 33 of the Decree.

Article 11 (Minor Modification of Improvement Plan)

(1) "Where any of the matters specified by City/Do ordinance ... is changed" in Article 13 (4) 12 of the Decree means any of the following cases:

1. Change of the name of an improvement zone;
2. Changes in the decisions on an improvement zone to cut off corners of roads pursuant to Article 14 of the Rules on the Determination, Structures, and Installation Standards of Urban or Gun Planning Facilities;
3. Changes in plans to improve and ameliorate existing structures under Article 8 (3) 5 of the Enforcement Decree;
4. Where improvement zones are abutting on each other (including districts where a project is implemented by dividing the district in the same urban improvement-type redevelopment zone), changes in the scopes of improvement zones or districts to adjust their boundaries;
5. Changes for correction of a simple error made in the size of an area, etc. without any change in the scope of an improvement zone or district;
6. A plan for modifying lots of land or for dividing the district where the project is to be implemented in an urban improvement-type redevelopment zone, which does not entail any change in the plan regarding the main uses, building-to-land ratio, floor area ratio and height of each structure referred to in Article 9 (1) 5 of the Act;
7. Changes in the number of households within the range of the construction ratio of rental housing publicly notified by the Minister of Land, Infrastructure and Transport pursuant to Article 10 of the Act;
8. Changes that increase the number of households for which housing is to be constructed by up to 30 percent or decrease it by up to 10 percent, within the scope of the construction plan specified in the improvement plan;
9. Changes in the improvement plan due to amendment to relevant statutes or regulations, such as the Building Act, or changes in the construction plan in accordance with the results of deliberation by of a building committee organized pursuant to Article 4 of the Building Act.

(2) Modification of minor matters of an improvement plan that the head of a Gu may handle means any of the following:

1. Modification of less than five percent of the area of an improvement zone, in cases falling under Article 13 (4) 1 of the Decree;
2. Modification of less than five percent of the scale of fundamental infrastructure, in cases falling under Article 13 (4) 2 of the Decree;
3. Cases falling under Article 13 (4) 3 through 6, 10 or 11 of the Decree;
4. Modification to reduce the building-to-land ratio or floor area ratio of structures or to increase such ratio within the range of less than five percent, in cases falling under Article 13 (4) 7 of the Decree;

5. Modification to reduce the maximum height of structures, in cases falling under Article 13 (4) 8 of the Decree;
6. Cases falling under any subparagraph of paragraph (1).

Article 12 (Standards for Determining Amount of Cash Payment and Method of Payment)

- (1) If a project implementer request that he or she make a cash payment for a portion of the value of a site of a public facilities or infrastructure (hereinafter referred to as "public facilities, etc.") pursuant to Article 17 (4) of the Act, the Mayor shall determine the scope thereof taking into comprehensive consideration the requirements for installation prescribed in relevant statutes or regulations, demand for the public facilities, etc.
- (2) The relevant donated land for which a cash payment is to be made pursuant to Article 14 (3) of the Decree shall be evaluated taking into consideration the project implementation plan which has obtained approval (referring to the first approval of the project implementation plan including the cash payment).
- (3) A project implementer shall request the head of the competent Gu to select an appraisal business entity and to enter into contract with such entity to determine the amount of cash payment referred to in paragraph (1) and deposit expenses required for the appraisal in advance. After the appraisal is completed, the head of the Gu shall pay the expenses for the appraisal directly from the deposit and settle the remaining expenses with the project implementer.
- (4) The Mayor may allow to make installment payments of the amount of cash payment determined pursuant to paragraph (1) from the commencement date to the completion inspection date.
- (5) A project implementer shall enter into an agreement with the Mayor on such matters as the amount of cash payment determined pursuant to paragraph (1), the payment method and the payment deadline, and other relevant matters before obtaining approval of a management and disposal plan.
- (6) The Mayor may determine other matters necessary for cash payment.

Article 13 (Methods for Subdividing, Consolidating and Combining Improvement Zones)

- (1) Pursuant to Article 18 (1) of the Act, the Mayor may promote the subdivision, consolidation and combination of zones, where necessary for the efficient implementation of an improvement project or for the preservation of urban landscape. In such cases, the Mayor shall designate (or revise a designation of) improvement zones pursuant Articles 8, 15, and 16 of the Act.
- (2) An improvement project (hereinafter referred to as "combined improvement project") implemented by combining separated zones into one improvement zone (hereinafter referred to as "combined improvement zone") pursuant to Article 18 (2) of the Act, shall conform to the following basic direction-settings:
 1. An improvement project may be implemented by combining undeveloped areas requiring the protection of urban landscape, cultural assets, etc. with an area of a station's sphere of influence where the high-intensity use of land is possible;
 2. To protect urban landscape, cultural assets, etc., the floor area ratio of an area where the use of land is restricted (hereinafter referred to as "low-density management zone") shall be transferred to an area where the high-intensity use of land is possible (hereinafter referred to as "high-density development zone") to develop the relevant area;
 3. Improvement plans, including a land use plan, plans on the density and heights of structures, and plans for fundamental infrastructure, shall be formulated taking regional characteristics into consideration.
- (3) If it is intended to implement a combined improvement project by designating a combined improvement zone, the methods and procedures for the implementation shall be as specified in attached Table 2.

The progress of consultation held between the owners of a plot of land or structure and tenants, including the result of operating a consultative body under Article 67 or the result of mediation conducted by an urban disputes mediation committee under Article 116 or 117 of the Act, at the time of preparing details of each tenant's rights and the appraised value thereof for compensating the tenant's loss pursuant to Article 74 (1) 8 of the Act, and details of the right of each owner of a plot of land or structure to be paid in cash pursuant to subparagraph 1 of Article 62 of the Decree and methods for the settlement thereof;
4. Documents relating to the agreement, including appraisal reports to determine the amount to be paid in cash pursuant to Article 14 (3) of the Decree and Article 12 (3) of the Ordinance, and payment methods and deadlines for payment for such amount;
5. Other documents substantiating the contents of the management and disposal plan.

Article 34 (Standards for Formulating Management and Disposal Plans)

A management and disposal plan of an improvement project under Article 74 (1) of the Act shall be formulated to meet the following standards:

1. The area of the formerly owned land shall be based on the cadastral record (in the case of changing the method of implementing the project, referring to a certificate of the land reserved for replotting) of each land owned under subparagraph 19 of Article 2 of the Act on the Establishment and Management of Spatial Data, as at the base date of the management and disposal plan: Provided, That where one parcel of land is co-owned by several persons, it shall be based on their shares specified in the register of real estate (in cases of the change of method of implementing the project, referring to a certificate of the land reserved for replotting);
2. Preemptive rights to occupation of State land and public land shall be recognized as prescribed by relevant statutes and/or regulations, articles of association, etc. according to the results of cadastral survey conducted based on their boundaries;
3. The areas of the formerly owned buildings shall be based on the building register of each building owned as at the base date of the management and disposal plan, excluding the area of the part built in violation of relevant statutes and/or regulations: Provided, That, if the articles of association specify otherwise, it may be based on the property tax taxation ledger or survey results;
4. The ownership of the former land, etc. shall be as specified in the register of real estates (in cases of the change of the method of implementing the project, referring to a certificate of the land reserved for replotting) as of the base date the management and disposal plan, and the acquisition date of the ownership shall be based on the date of receipt of the application for registration specified in the register of real estates: Provided, That in cases of specific unlicensed structures (including structures unapproved for use), the ownership shall be based on the certificate of existing unlicensed structures issued by the head of the competent Gu or Dong or any other material substantiating the ownership of the relevant person;
5. A person holding preemptive rights to occupation of State land or public land shall be based on the preemptive rights to occupation recognized pursuant to subparagraph 2;
6. Article 74 (2) 1 of the Act shall apply mutatis mutandis to the appraisal and assessment of State and public property among the sites defined in Article 2 (1) 1 of the Building Act, and shall be appraised pursuant to Article 98 (5) and (6) of the Act.

Article 35 (Criteria for Selection of Appraisal Business Entities)

The criteria, procedures and methods for selecting appraisal business entities by the head of a Gu under Article 74 (2) 2 of the Act shall be as follows:

1. The head of a Gu shall receive applications from appraisal business entities authorized under Article 29 of the Act on Appraisal and Certified Appraisers (hereinafter referred to as the "Appraisal Act") among the appraisal business entities defined in

subparagraph 4 of Article 2 of the same Act, and shall select appraisal business entities after evaluating the following items; and the detailed criteria for evaluation shall be as specified in attached Table 3:

- (a) Performance record of each appraisal business entity;
- (b) Number of appraisers in each appraisal business entity;
- (c) Degree of participation in existing appraisals;
- (d) Compliance with law;
- (e) Appropriateness of appraisal fees;
- (f) Appropriateness of the appraisal plan;

2. Any of the following appraisal business entities shall be excluded from the selection:

- (a) An appraisal business entity for which six months have not passed from the date the period of validity of a disposition for suspension from duties pursuant to Article 32 of the Appraisal Act expires;
- (b) An appraisal business entity for which six months have not passed from the date a disposition of the imposition of a penalty surcharge under Article 41 (1) of the Appraisal Act or a disposition for the imposition of an administrative fine under Article 52 of the same Act is received;
- (c) A person for whom one year has not passed since he or she was sentenced to a fine or a heavier punishment under Article 95 of the Act on Acquisition of and Compensation for Land for Public Works Projects or Article 49 or 50 of the Appraisal Act.

Article 36 (Eligible Purchasers of Housing Units Built by Redevelopment Projects)

(1) Pursuant to Article 63 (1) 3 of the Decree, the eligible purchasers of multi-family housing units to be built by implementing a redevelopment project shall be the owners of a plot of land or structure who fall under any of the following subparagraphs, as at the base date of the management and disposal plan:

1. A person who owns a house (including a structure specified by the articles of association, etc. of the association among specific unlicensed structures used for residential purpose) among the former structures;
2. An applicant for purchase of a building site or unit for whom the total area of the former land owned by the applicant is at least 90 square meters;
3. An applicant for purchase of a building site or unit for whom the value of rights held by the applicant is at least the estimated price of one minimum-size multi-family housing unit for sale: Provided, That, where applicants for the purchase of a building site or unit form the same household, the value of rights may be calculated by aggregating the values of the whole members of the household;
4. A person for whom a replotted lot of land is designated in accordance with the project method applicable before the change of the method of implementing the project. In such cases, paragraph 1 through 3 may not apply;
5. A person who has been compensated for a former house (including a structure actually used for residential purpose), where the infrastructure is planned to be installed according to an urban renewal acceleration plan under Article 11 (4) of the Urban Renewal Act.

(2) Notwithstanding paragraph (1), several applicants for purchase of a building site or unit shall be deemed one eligible purchaser, in any of the following cases:

1. Where a detached house or multi-unit house is converted into a multi-household house after the base date of computing rights;
2. Where several applicants for purchase of a building site or unit belong to one household pursuant to Article 39 (1) 2 of the Act;
3. Where several persons co-own one house or one parcel of land: Provided, That cases where the share of land co-owned since before the base date of computing rights falls under paragraph (1) 2 or where the value of rights falls under paragraph (1) 3 shall be exceptional;
4. Where one parcel of land is divided into several lots after the base date of computing rights;
5. Where a parcel of land and a house which belong to the range of one site owned by the same person are divided into the land and the structure for separate ownerships after completing the construction of the structure: Provided, That cases where the area of land owned since before the base date of computing rights is at least 90 square meters shall be exceptional;
6. Where, after the base date of computing rights, constructing new structures in a vacant lot or constructing multi-household houses or any other multi-family housing after existing structures, leads to an increase in the number of owners of a plot of land or structure.

(3) In calculating the total area of the former land under paragraph (1) 2 and the value of rights under paragraph (1) 3, none of the following land shall be included therein:

1. Where any land belonging to the range of one site defined in Article 2 (1) 1 of the Building Act consists of several parcels of land, the land acquired as part of such land or acquired by co-ownership after the base date of computing rights;
2. Where one structure occupies land belonging to the range of one site, the land acquired separately from such structure after the base date of computing rights;
3. Land acquired by dividing one lot of land or by co-ownership after the base date of computing right.

(4) Notwithstanding paragraphs (1) through (3), all persons for whom replotted lots of land are designated may become eligible purchasers respectively, regardless of the size of the area of the replotted land or regardless of jointly-replotted land.

Article 37 (Eligible Purchasers of Housing Units Built by Detached Houses Reconstruction Projects)

(1) Each eligible purchaser of a multi-family housing unit to be built by a detached houses reconstruction project (referring to the project referred to in Article 6 of the partially amended Enforcement Decree of the Act on the Improvement of Urban Areas and Residential Environments (Presidential Decree No. 24007); hereinafter the same shall apply) shall, as at the base date of the management and disposal plan, be the owner of a plot of land or structure, as any of the following persons:

1. A person who owns a house among the former structures and land appurtenant to the house;
2. An applicant for purchase of a building site or unit for whom the value of rights held by the applicant is at least the estimated price of one minimum-size multi-family housing unit for sale: Provided, That the value of rights where applicants for the purchase of a building site or unit form the same household may be calculated by aggregating the value of rights of the whole members of the household.

(2) Notwithstanding paragraph (1), several applicants for purchase of a building site or unit shall be deemed one eligible purchaser, in any of the following cases:

1. Where a detached house or multi-unit house is converted into a multi-household house after the base date of computing rights;
2. Where several applicants for purchase of a building site or unit belong to one household pursuant to Article 39 (1) 2 of the Act;
3. Where several persons co-own one house or land appurtenant to the house;
4. Where, after the base date of computing rights, constructing new structures in a vacant lot, or constructing multi-household houses or any other multi-family housing after demolishing existing structures, leads to an increase in the number of the owners of a plot of land or structure.

Article 38 (Standards for Supplying Housing Units, Appurtenant Facilities and Welfare Facilities)

(1) The standards for supplying housing units by a residential environment improvement project, a redevelopment project, and a detached houses reconstruction project implemented by the method set forth in Article 23 (1) 4 of the Act, pursuant to Article 63 (1) 7 of the Decree, shall be as follows:

1. A housing unit built for sale shall be supplied, based on the value of the housing unit built for sale corresponding to the value of rights. In such cases, if the value of right falls between the values of two housing units for sale, a housing unit built for sale shall be based on the application of the person eligible to purchase;
2. Notwithstanding subparagraph 1, the housing units may be sold in the order of the highest value of rights if the articles of association incorporation, etc. prescribe as such;
3. In cases of supplying two housing units pursuant to Article 76 (1) 7 (c) of the Act, housing units not exceeding 60 square meters may be supplied in the order of the highest value of rights remaining after excluding the value of one housing unit built for sale based on the application of an eligible purchaser from the value of rights;
4. If there is competition in purchasing same-size housing units, the housing units shall be sold in the order of the highest value of rights; and if the values of rights are the same, the housing units shall be sold by public lottery; and the tower, floor, and unit number representing a housing unit shall be determined by public lottery.

(2) Pursuant to Article 63 (1) 7 of the Decree, appurtenant facilities and welfare facilities, including commercial facilities, to be constructed by a residential environment improvement project and a redevelopment project implemented by the method referred to in Article 23 (1) 4 of the Act, shall be supplied based on the following priority order. In such cases, if there is competition in purchasing appurtenant facilities and welfare facilities, including commercial facilities, the housing units shall be selected as specified in paragraph (1) 4:

1. Priority 1: The purpose of use of the former structure is the same as or similar to that of a structure to be sold; and, as the owner of a structure where he or she operates a business after filing business registration (including authorization, license, reporting, etc.; hereafter in this paragraph, the same shall apply), the value of his or her right (where a multi-family housing unit has been purchased, referring to the value excluding the purchase value thereof; hereafter in this paragraph, the same shall apply) is at least the estimated value of a structure to be sold in the smallest size;
2. Priority 2: A person the value of whose right is at least the estimated value of a structure to be sold in the smallest size, as the owner of a former structure the purpose of use of which is the same as or similar to that of a structure to be sold;
3. Priority 3: A person the value of whose right falls below the estimated value of a structure to be sold in the smallest size but has not purchased a multi-family housing unit, as the owner of a former structure registered for a business and the purpose of use of which is the same as or similar to that of a structure to be sold;
4. Priority 4: A person the value of whose right falls below the estimated value of a structure to be sold in the smallest size but has not purchased a multi-family housing unit, as the owner of a former structure, the purpose of use of which is the same as or similar to that of a structure to be sold;
5. Priority 5: A person the value of whose right is at least the estimated value of a structure to be sold in the smallest size, as a person who has not purchased a multi-family housing unit;
6. Priority 6: A person the value of whose right is at least the estimated value of a structure to be sold in the smallest size, as a person who has purchased a multi-family housing unit.

Article 39 (Deposit of Expenses for Verifying Validity of Management and Disposal Plan)

(1) The head of a Gu shall notify that a project implementer should deposit expenses for verifying the validity of its management and disposal plan before requesting a public institution to verify the validity of a management and disposal plan pursuant to Article 78 (3) of the Act.

(2) Where the verification of the validity is completed, the head of the Gu shall pay expenses for verifying the validity directly from the deposited amount and settle the remaining expenses with the project implementer.

(3) When requesting the verification of the validity of a management and disposal plan pursuant to Article 78 (3) 3 of the Act, a written request for verification of the validity of the management and disposal plan in the attached Form 3 shall be submitted to the head of the competent Gu, along with a written consent to the request for verification of in attached Form 4.

Article 40 (Sale of Building Sites or Units to General Public)

Land and structures excluding housing units to be supplied to the owners of a plot of land or structure pursuant to Article 79 (2) of the Act and reserved area to be disposed of pursuant to Article 44 (hereinafter referred to as "facilities allotted by the authorities in recompense of development outlay") may be sold to persons other than the members of the association or the owners of a plot of land or structure pursuant to Article 79 (4) of the Act, and the criteria for such sale shall be as follows:

1. Multi-family housing units among facilities allotted by the authorities in recompense of development outlay shall be sold to the general public as prescribed by the Housing Act and the Rules on Housing Supply, based on the prices calculated pursuant to Article 74 (1) 4 (a) of the Act;

2. Appurtenant facilities and welfare facilities among facilities allotted by the authorities in recompense of development outlay shall be sold as prescribed by the Housing Act and the Rules on Housing Supply, based on the prices calculated pursuant to Article 74 (1) 4 (d) of the Act: Provided, That, where tenants (referring to tenants who have operated businesses continuously since three months before the date of public announcement for public inspection of the designation of the improvement zone until the date of relocation due to the approval of the project implementation plan) want to purchase such facilities, the facilities shall be sold to the tenants on the preferential basis in the following order,:

(a) Priority 1: A person who has operated a business after completing business registration, as a tenant of a structure whose purpose of use is the same as or similar to that of the structure to be sold;

(b) Priority 2: A person who has operated a business, as a tenant of a structure whose purpose of use is the same as or similar to that of the structure to be sold;

3. Notwithstanding subparagraphs 1 and 2, the head of a Gu shall ensure to sell a house specially to a person who owns a house to be demolished in an urban renewal acceleration district due to an urban planning project (limited to a person who does not own a house other than the house to be demolished) pursuant to Article 36 of the Rules on Housing Supply if he or she wishes to purchase a house in a nearby improvement zone.

Article 41 (Acquisition Price of Redeveloped Rental Housing and Items to Be Added)

(1) The acquisition price of redeveloped rental housing (hereinafter referred to as "rental housing") under Article 68 of the Decree shall be the aggregate of the construction cost and the price of appurtenant land. In such cases, the construction cost shall conform to the standard construction cost of public-constructed rental housing as at the time the first invitation of occupants is publicly announced for general supply.

(2) The items to be added to the construction cost of rental housing and the price of the appurtenant land pursuant to Article 68 (2) of the Decree shall be determined after holding consultation under Article 9-2 of the Rules on Determination of Sale Price of Multi-Family Housing and Table 7 of the Enforcement Rule of the Special Act on Public Housing.

(3) Notwithstanding paragraph (1), where a project implementer is granted mitigation of a floor area ratio by choosing to construct rental housing, such as housing for a long-term lease on a deposit basis, the appurtenant land shall be supplied free of charge to the acquirer.

(4) The land appurtenant to redeveloped rental housing under in Article 68 (2) of the Decree refers to the land subject to the right to a site (referring to the right to use a site defined in subparagraph 6 of Article 2 of the Act on Ownership and Management of Condominium Buildings, which cannot be disposed of separately from the building) of the rental housing. In such cases, where redeveloped rental housing is constructed by dividing the site into separate lots at the time the improvement zone is designated, such land refers to such lots.

Article 42 (Methods and Procedures for Acquiring Rental Housing Units)

(1) Where an association requests the Mayor to acquire rental housing units (including the site, appurtenant facilities and welfare facilities; hereinafter the same shall apply) newly constructed by implementing a redevelopment project pursuant to Article 79 (5) of the Act, the Mayor shall conclude a sale and purchase agreement with the association (hereinafter referred to as "sale and purchase agreement") at the acquisition price determined pursuant to Article 41 (1) and (2).

(2) An association shall submit the relevant documents, such as the rental housing construction plan and calculation details of the sale price (including changes thereto), to the head of the competent Gu, after obtaining approval of the project implementation plan, and shall consult with the Mayor thereon.

- (3) An association shall include the sale price consulted pursuant to paragraph (2) in the management and disposal plan.
- (4) The Mayor and an association shall conclude a contract for the sale and purchase of rental housing units at the time the first invitation of occupants is publicly announced for general supply.
- (5) Notwithstanding paragraph (4), the Mayor may adjust the timing of concluding a sale and purchase contract within the budget, when necessary for the invigoration, etc. of improvement projects.
- (6) The Mayor shall pay the acquisition price of rental housing units specified in the sale and purchase contract as follows:
1. When concluding the sale and purchase contract, a contract deposit equivalent to five percent of the total amount shall be paid;
 2. Intermediate payments shall be made in five installments in the amount equivalent to 15 percent of the total amount, respectively, when the construction progress reaches at least 20 percent, 35 percent, 65 percent and 80 percent;
 3. Part of the remainder shall be paid in the amount equivalent to 15 percent of the total amount after obtaining approval for completion of the project pursuant to Article 83 of the Act, and the remaining balance shall be paid on or after the date of the public notice of transfer under Article 86 of the Act.
- (7) The Mayor may separately decide the matters necessary for the acquisition of rental housing units.
- (8) The method of concluding the sale and purchase contract of a rental housing site to be constructed by the Corporation designated as a project implementer pursuant to the latter part of Article 28 (1) and the payment method thereof shall be as follows:
1. The sale and purchase contract of a rental housing site shall be concluded between the relevant project implementer and the Mayor after completing the development of the site of the improvement zone;
 2. The sale price shall be the estimated price calculated pursuant to Article 68 (2) of the Decree;
 3. The sale price shall be paid as follows by dividing it into a contract deposit, intermediate payment and the remainder:
 - (a) The amount of the contract deposit shall be 20 percent of the total amount, and shall be paid when the sale and purchase contract of the site is concluded;

 - (c) The remainder shall be paid after the date of the public notice of transfer made under Article 86 of the Act.
- (9) Where a project implementer constructs rental housing units by implementing a residential area preservation project, the methods and timing of concluding the sale and purchase contract of the rental housing units, the sale price and the payment method thereof shall be as follows:
1. The sale and purchase contract shall be concluded by and between the Mayor and the relevant project implementer when a report on the commencement of the construction of rental housing is filed;
 2. The sale price shall be determined as prescribed in Article 68 (2) of the Decree, but the items to be added to the price of construction costs may be determined separately by holding consultation between the Mayor and the project implementer, and shall be finalized by the approval of the management and disposal plan. In such cases, such price shall not exceed the arithmetic mean of the values appraised by least two appraisal business entities, as the date approval of the relevant project implementation plan is publicly notified;
 3. The sale price shall be paid by dividing it into a contract deposit, intermediate payment and the remainder:
 - (a) The amount of the contract deposit shall be 20 percent of the total amount, and shall be paid when the sale and purchase contract is concluded;
 - (b) The amount of intermediate payment shall be 60 percent of the total amount, and shall be paid after completing the development of the rental housing site and transferring the result of a survey of present conditions thereof to the Mayor;
 - (c) Part of the remainder shall be paid after the date of the approval of completion issued under Article 83 of the Act, in the amount equivalent to 15 percent of the total amount, and the remaining balance shall be paid after the date of the public notice of transfer made under Article 86 of the Act.

Article 43 (Persons Excluded from Those Eligible to Be Supplied with Housing Units Constructed by Residential Environment Improvement Projects)

Persons to be excluded from the supply of housing units pursuant to the proviso to attached Table 2 under Article 66 of the Decree shall be the owners of land which is less than 90 square meters.

Article 44 (Reserved Area)

- (1) Where housing units, etc. pursuant to Article 38 are supplied, the project implementer shall secure reserved areas (including structures; hereinafter the same shall apply) under Article 79 (4) of the Act to prepare for the omissions of, errors concerning, and litigation, etc. to be filed by eligible purchasers in accordance with the following standards:
1. Multi-family housing units within the range of one percent of the total number of households to be constructed to sell to the owners of a plot of land or structure under Articles 74 and 79 of the Act, and part of appurtenant facilities and welfare facilities, including commercial facilities, may be designated as reserved areas;
 2. A project implementer intending to designate reserved areas in excess of the range of one percent referred to in subparagraph 1 shall submit the reason therefor and evidentiary documents to the head of the competent Gu to obtain approval.

(2) The reserved areas under paragraph (1) shall be disposed of in accordance with the following standards:

1. Such areas shall be disposed of, on a preferential basis, to eligible purchasers subjected to the omissions of, errors concerning, and litigation, etc. filed, or to qualified tenants referred to in Article 27 (2) 3;
2. Article 74 (1) 3 of the Act shall apply mutatis mutandis to the sale prices of reserved areas;
3. Any portion of reserved areas remaining after disposal conducted pursuant to subparagraph 1 shall be sold in accordance with Article 40.

Article 45 (Security Deposits and Rents in Cases of Residential Environment Improvement Projects)

Security deposits and rents of rental housing units in a residential environment zone specified in subparagraph 1 (c) (ii) of attached Table 3 under Article 69 (1) of the Decree shall be governed by the relevant provisions of the statutes and/or regulations related to rental housing.

Article 46 (Persons Eligible to Be Supplied with Rental Housing Units Constructed by Redevelopment Projects)

3. Where the number of existing housing units in an improvement zone exceeds 500 and the total number of existing housing units in one or more other improvement zones (limited to the zones for which applications for approval of management and disposal plans have been filed or such approvals have been granted within the recent six months based on the application date of approval for the relevant zone) in the same legal Dong exceeds 2,000.

(2) A zone subject to deliberation that falls under any of the following cases may be determined as a zone subject to adjustment:

1. Where the number of demolished housing units in the neighborhood exceeds the quantity supplied by 30 percent;
2. Where the number of demolished housing units in the neighborhood exceeds the quantity supplied by 2,000 units;
3. Other cases where the Housing Policy Deliberative Committee deems it necessary to adjust the time frames for granting approval in consideration of instability of housing market.

Article 50 (Data for Adjustment of Time Frames)

- (1) The head of a Gu shall prepare the status and forecast of the supply and demolition of housing units, the status of and the plan for the promotion of improvement projects in the relevant autonomous Gu (indicating whether it falls under a zone subject to deliberation due to the reason set forth in Article 49 (1) 3), the trend of deposit amount for lease on a deposit basis, etc., and shall submit them to the Mayor by the end of each month.
- (2) The Mayor shall publicly announce each quarter the inventory of housing units of each Gu, based on the data for adjustment of time frames submitted by the head of each Gu.
- (3) The head of a Gu may request a project implementer to submit data for adjustment of time frames even before an application for approval of a project implementation plan or management and disposal plan regarding an improvement zone is filed.
- (4) The Mayor may separately determine and operate detailed criteria necessary to adjust time frames.

Article 51 (Procedures and Methods for Adjusting Time Frames)

- (1) When the project implementer of a zone subject to deliberation files an application for approval of a project implementation plan or management and disposal plan, the head of the Gu shall prepare the data for adjustment of time frames and the review opinions, and shall request the Mayor to deliberate thereon.
- (2) The Mayor shall make decisions on whether time frames for granting approval of a project implementation plan or management and disposal plan, adjustment period, etc. after deliberation by the Housing Policy Deliberative Committee.
- (3) The Mayor shall notify the head of the relevant Gu of the matters decided pursuant to paragraph (2) in writing within 60 days from the date of the application for deliberation, and the head of the relevant Gu shall comply with such matters decided unless any extenuating circumstance exists.
- (4) The head of a Gu may grant approval if the adjustment period decided under paragraph (2) expires.
- (5) A project implementer in a zone subject to adjustment may select a contractor, in consultation with public assistants, even during the adjustment period of approval of a project implementation plan.

CHAPTER V BEARING OF COSTS

Article 52 (Subsidization of Cost of Fundamental Infrastructures)

CHAPTER V BEARING OF COSTS(1) Pursuant to Article 92 (2) of the Act and Article 77 of the Decree, the Mayor may grant a subsidy to the head of a Gu for all or part of the installation cost of any of the following fundamental infrastructures:

1. Roads for the exclusive use of motor vehicles under Article 48 of the Road Act, main arterial roads and local distribution roads under Article 3 of the Rules on the Standards for Structures and Facilities of Roads, and urban parks under Article 15 of the Act on Urban Parks and Green Areas (excluding small parks and children's parks), in a housing improvement-type redevelopment zone;
2. Major fundamental infrastructures to be installed in an urban improvement-type redevelopment zone due to a ground falling under any of the following cases:
 - (a) Where it is necessary to implement the project urgently due to a natural disaster, etc.;
 - (b) Where it is necessary to implement the project in connection with an urban planning project implemented by the Mayor;
 - (c) Where the size of a construction project is restricted due to the implementation of an improvement project in the neighborhood of a cultural asset, etc. to preserve cultural heritage;
 - (d) Where the head of a Gu implements the project after prior consultation with the Mayor to construct a public structure or to invigorate other regional economy;
 - (e) Where the project is implemented by the restoration-type [(referring to a small unit improvement-type referred to in 2025 Seoul Metropolitan Government Master Plan for Improving Urban Areas and Residential Environments (urban environments improvement project sectors)] improvement method (referring to the method that gradually improves old structures and vulnerable urban environments while maintaining and preserving the regional characteristics and locality).
- (2) Pursuant to Article 95 of the Act, the Mayor may subsidize part of the installation cost of major fundamental infrastructures to the relevant project implementer for any of the following costs:
 1. Cost for installing major fundamental infrastructures and common facilities (limited to a management-type residential environment improvement zone) in a residential improvement zone;
 2. Cost for installing any of the following fundamental infrastructures in a housing improvement-type redevelopment zone (hereinafter referred to an "installation cost"):
 - (a) Roads which are at least eight meters wide, for urban planning facilities;
 - (b) Small parks, children's parks and green areas;
 - (c) Roads which are less than eight meters wide, if a redevelopment project is implemented in any of the following areas recognized by the Mayor for the purpose of creating a various residential areas, including middle- and low-rise housing, to be in harmony with the terrain, etc.:
 - (i) An area where an improvement project is promoted, as a hilly area at least 40 meters above sea level;
 - (ii) An area requiring preservation of landscape;
 - (iii) A low-density development area where up to seven floors are allowed.

(3) In order for a project implementer to receive a subsidy for the installation cost of fundamental infrastructure pursuant to paragraph (2) 2, he or she shall prepare and submit documents prescribed by municipal rules to the head of the competent Gu, and the head of the Gu shall consult on the subsidy with the Mayor and shall notify the project implementer of the result of the consultation before a public inspection of the approval of the project implementation plan is conducted pursuant to Article 56 of the Act. In such cases, the zone eligible for the subsidization of the installation cost shall be limited to a zone for which an approval (including amended approval) of the project implementation plan is obtained before filing a report on the commencement of construction works under Article 21 of the Building Act.

(4) A subsidy for the installation cost shall be paid after completion of construction works, within the range of the amount notified pursuant to paragraph (3).

(5) The Mayor may prescribe by municipal rules necessary matters concerning the criteria for calculating the subsidy for installation cost under paragraphs (3) and (4), and detailed procedures, methods, etc. for the application, notification, and payment of the subsidy.

(6) Where only part of the site of fundamental infrastructure to be installed by a project implementer pursuant to Article 96 of the Act is secured, and thus it is deemed that the relevant infrastructure would be unable to function properly or the efficiency of the use of the infrastructure would be unsatisfactory, even if the fundamental infrastructure becomes to be installed, the head of the relevant autonomous Gu may require the project implementer to deposit the installation cost of the relevant infrastructure in the treasury of the relevant autonomous Gu.

(7) Where the head of a Gu formulates an improvement plan pursuant to Article 8 (5) of the Act, the Mayor may subsidize necessary costs within the range prescribed by municipal rules.

(8) In order to preserve residential environments, the Mayor may subsidize the cost for improving houses for the owners of a plot of land or structure up to 1/2 of the construction cost within the budget, if some houses continue to remain in any of the following areas in an improvement zone (excluding a reconstruction zone). In such cases, the Mayor may determine the persons eligible for, and methods, etc. of, the subsidy:

1. Areas requiring preservation of historical and cultural characteristics;
2. Regulated areas, such as scenic districts and high-altitude districts.

(9) Where deemed necessary, the Mayor may subsidize, within the budget, the project cost for preservation, etc. of old paths, old waterways, and traditional Korean-style houses named Hanok in an improvement zone for which plans to preserve and utilize historic and cultural resources are included in the improvement plan pursuant to subparagraph 8 of Article 8, among housing improvement-type redevelopment zones.

Article 53 (Loans for Project Costs)

(1) The Mayor may provide a loan for part of the costs required for an improvement project within the following range to a person who implements an urban improvement-type redevelopment project for the recovery, etc. of urban functions:

1. In cases of a project implemented by the head of a Gu: Within 80 percent of the construction cost;
2. In cases of a project implemented by a person other than the head of a Gu: Within 40 percent of the construction cost.

(2) "Other expenses and costs specified by City/Do municipal ordinance" in Article 79 (5) 5 of the Decree means operating expenses of a promoters' committee and an association and service cost such as design cost.

(3) Loans may be granted in accordance with the following criteria within the range prescribed in Article 79 (5) of the Decree:

1. The interest rate of a loan shall be determined by the Mayor at the level of maintaining its function as a policy fund, in consideration of the base rate determined by the Bank of Korea, but the interest rate of a loan may be differentially applied according to the items of expenditure requiring the loan such as operating expenses of a promoters' committee and an association and service cost;
2. The project implementer shall repay the loan before filing an application for approval for the completion of the relevant improvement project.

(4) A promoters' committee or an association may file an application for a loan with the Mayor after adopting a resolution by a general meeting, and shall submit the regulations on operation or articles of association that include the following:

1. Matters concerning the repayment of the loan amount;
2. Matters concerning the succession of debts in the event of the replacement of the chairperson of the promoters' committee or the president of the association who has provided collateral, etc. as at the time the application for the loan is filed.

(5) The Mayor may grant a loan for expenses to improve and newly construct houses in a management-type residential environment improvement project zone, within the range of 80 percent.

(6) Necessary matters concerning loans, other than those specified in paragraphs (2) through (4), shall be determined by municipal rules.

Article 54 (Vesting of Ownership of Fundamental Infrastructure and Land)

(1) A road to be transferred free of charge to the project implementer among the public property referred to in Article 97 (3) 4 of the Act refers to a site provided for public traffic and actually used as a road. In this regard, the cases shall also include the relevant ownership vested free of charge in the head of the Gu, the Korea Land and Housing Corporation, etc. pursuant to Article 97 (1) of

the Act .

(2) The Mayor may determine the standards, etc. of roads necessary for free transfer (vesting of ownership).

Article 55 (Criteria for Recognizing Preemptive Rights to Occupation and Use of State or Public Land)

(1) The criteria for preferential sale of State or public land to the owner of a structure (excluding cases where membership of the association is not recognized as prescribed in the articles of association, and newly appeared unlicensed structures) who occupies and uses such State or public land in an improvement zone pursuant to Article 98 (4) of the Act, shall be as follows. In such cases, the area to be sold shall not exceed 200 square meters:

1. The area authorized to occupy and use shall be the area actually used by structures, the boundary of which is distinguished by walls, etc.; and where it is impractical to distinguish the boundary, the vertical line at the end of the eaves shall be the boundary;
2. Where a structure occupies and uses any private land and State or public land, the area to be sold shall include an area of such private land and an area of State or public land in the relevant zone.

(2) The calculation of an area of land occupied and used referred to in paragraph (1) shall conform to the results of cadastral survey conducted under the Act on the Establishment and Management of Spatial Data.

(3) A person who occupies and uses State or public land and intends to purchase it on a preferential basis pursuant to paragraph (1), shall conclude a sale and purchase contract with the management authority of the relevant State or public land, by the time of filing of an application for approval of a management and disposal plan.

Article 56 (Criteria for Public Interests for Exemption from User Fees for Common Facilities)

(1) "Criteria for public interests" for exemption from user fees for common facilities in a management-type residential environment improvement zone under Article 100 of the Act means any of the following:

1. The activities shall be aimed to protect and improve residential environments, to ensure the health, safety and benefits of residents, and to solve problems faced by the regional community;
2. The activities shall be aimed to enhance the quality of life of local residents by invigorating the local economy through social services or providing jobs in the fields of welfare, medical care, environment, etc.

(2) Pursuant to Article 100 of the Act, those eligible for the exemption from user fees for common facilities shall be as follows:

1. The head of the relevant Gu;
2. The community management council;
3. An organization organized under the initiative of local residents in connection with the community management council to attain the public interests referred to in paragraph (1).

(3) Those eligible for the exemption from user fees for common facilities under paragraphs (1) and (2) may operate profit-making facilities required in the region within the range not infringing existing commercial rights; and if any profits are created therefrom, they shall be accumulated as a community fund and used transparently to attain the public interests referred to in paragraph (1).

(4) The Mayor may provide guidance to and supervise the accumulation, use, etc. of the community fund referred to in paragraph (3) by applying Article 61 mutatis mutandis.

Article 57 (Management and Disposal of State and Public Land in Residential Environment Improvement Zones)

(1) Articles 26 (3) and 36 of the Seoul Metropolitan Government Ordinance on Public Property and Commodity Management, and Article 80 of the Enforcement Decree of the Public Property and Commodity Management Act shall apply mutatis mutandis to the management and disposal of any State and public land in a residential environment improvement zone transferred to the project implementer pursuant to Article 101 (5) of the Act.

(2) In cases of disposing of any land transferred, the management authority shall register a special agreement for canceling the contract for disposal of the relevant land when the relevant residential environment improvement project is cancelled.

CHAPTER VI CONSULTATIVE BODY FOR RESIDENTS AND COMMUNITY MANAGEMENT COUNCIL IN MANAGEMENT-TYPE RESIDENTIAL ENVIRONMENT IMPROVEMENT PROJECT

Article 58 (Definitions)
