 - (2) The building-to-land ratio of any building constructed in a natural landscape district shall not exceed 30 percent under Article 72 (2) of the Decree: Provided, That the building-to-land ratio in any area provided for in any of the following subparagraphs and designated and publicly announced by the head of a Gu concerned after deliberation of the Urban Planning Committee of the Seoul Government or the Urban Regeneration Committee of the Seoul Government (limited to areas in which a housing improvement project in a city block (limited to cases in which a project is implemented solely by the Seoul Housing or the Korea Land and Housing Corporation, or jointly with the owners of a plot of land or structure or an association) defined in the Act on Special Cases concerning Unoccupied House or Small-Scale Housing Improvement (hereinafter referred to as "Act on Small-Scale Housing Improvement") or a small-scale reconstruction project is to be implemented) may be 40 percent or less: <Amended on Jul. 30, 2008; Jul. 16, 2020; Oct. 5, 2020>
 1. An area which is located in the side of a road of not less than 25 meters in width and is functioning as a landscape district and in which it is necessary for the efficiency of land utilization to be enhanced;
 2. An area in which dilapidated and substandard structure as provided for in subparagraph 3 of Article 2 of the Act on the Improvement of Urban Areas and Residential Environments are densely aggregated, in which the improvement of residential environment is promoted by easing restrictions on construction, and in which there is no impediment to the maintenance of the landscape of adjacent areas;

3. An area in which a housing improvement project in a city block (limited to cases in which a project is implemented solely by the Seoul Housing or the Korea Land and Housing Corporation, or jointly with the owners of a plot of land or structure or an association) defined in the Act on Small-Scale Housing Improvement or a small-scale reconstruction project is to be implemented, in which the improvement of residential environment is promoted by easing restrictions on construction, and in which there is no impediment to the maintenance of the landscape of adjacent areas.

(3) If the land located in a natural landscape district, the site area of which is smaller than 330 square meters or in which detached houses (excluding multi-unit houses) under subparagraph 1 of attached Table 1 of the Enforcement Decree of the Building Act are constructed, the building-to-land ratio therein may be 40 percent or less, notwithstanding the main clause of paragraph (2).

<Amended on Jul. 16, 2020>

(4) The height of a building constructed in a natural landscape district under Article 72 (2) of the Decree shall not exceed three floors and 12 meters: Provided, That the height of a building in an area provided for in any of the following subparagraphs and designated and publicly announced by the head of a Gu concerned after deliberation of the Urban Planning Committee of the Seoul Government or the Urban Regeneration Committee of the Seoul Government (limited to areas in which a small-scale reconstruction project is to be implemented) may not exceed four floors and 16 meters: <Amended on Jan. 5, 2005; Jul. 30, 2008; Jul. 16, 2020>

1. An area in which the restrictions on the height of any building are ineffective due to a considerable difference in height from any other adjacent areas and which is in harmony with any adjacent site without shutting off a view shaft even though the construction is deregulated;

2. An area located in the side of a road of not less than 25 meters in width and is functioning as a landscape district and in which it is necessary for the efficiency of land utilization to be enhanced;

3. An area in which dilapidated and substandard structure as provided for in subparagraph 3 of Article 2 of the Act on the Improvement of Urban Areas and Residential Environments are densely aggregated, in which the improvement of residential environment is promoted by easing restrictions on construction, and in which there is no impediment to the maintenance of the landscape of adjacent areas;

4. An area in which a small-scale reconstruction project is to be implemented, from among the small-scale housing improvement projects defined in Article 2 (1) 3 of the Act on Special Cases concerning Unoccupied House or Small-Scale Housing Improvement, in which the improvement of residential environment is promoted by easing restrictions on construction, and in which there is no impediment to the maintenance of the landscape of adjacent areas.

(5) Notwithstanding paragraph (4), the height of any of the following buildings from among urban planning facilities located in a natural landscape district may not exceed seven floors and 28 meters if the Mayor deems that there is no impediment to the protection of urban landscape after deliberation of the Urban Planning Committee of the Seoul Government: Provided, That if an altitude of the site is 70 meters or higher above sea level, the height of such building shall not exceed five floors and 20 meters:

<Amended on Jul. 30, 2008>

1. Any school established under the Framework Act on Education;

2. Any Government-funded research institute established under any special Act;

3. Any general hospital established under Article 33 (2) 2 through 5 of the Medical Service Act;

4. Any central government or local government office building.

(6) If any building is constructed in a natural landscape district under Article 72 (2) of the Decree, the landscaping area equivalent to 30 or more percent of the site area shall be ensured and the landscaping such as tree planting shall be carried out therein:

Provided, That this shall not apply to the construction of a building on a site the area of which is less than 200 square meters and to the perpendicular extension of either any such building provided for in any subparagraph of Article 24 (4) of the Seoul Metropolitan Government Ordinance on Building (hereinafter referred to as the "Building Ordinance") or any school building. <Amended on Jul. 30, 2008; Jul. 28, 2011; Mar. 28, 2019>

(7) Notwithstanding the main clause of paragraph (4), the height of a building in any of the following areas may not exceed five floors and 20 meters, subject to deliberation of the Urban Planning Committee of the Seoul Government or the Urban Regeneration Committee of the Seoul Government (limited to areas in which a housing improvement project in a city block (limited to cases in which a project is implemented solely by the Seoul Housing or the Korea Land and Housing Corporation, or jointly with the owners of a plot of land or structure or an association) defined in the Act on Small-Scale Housing Improvement or a small-scale reconstruction project is to be implemented): <Newly Inserted on Jan. 5, 2005; Jul. 16, 2020; Oct. 5, 2020>

1. A zone in which a redevelopment project or reconstruction project is implemented, among the improvement zones under subparagraph 1 of Article 2 of the Act on the Improvement of Urban Areas and Residential Environments;

2. An area in which a housing improvement project in a city block (limited to cases in which a project is implemented solely by the Seoul Housing or the Korea Land and Housing Corporation, or jointly with the owners of a plot of land or structure or an association) defined in the Act on Small-Scale Housing Improvement or a small-scale reconstruction project is to be implemented and to which a relaxed floor area ratio is applied pursuant to Article 48 (2) or 49 (1) of the same Act.

(8) Notwithstanding the main clauses of paragraphs (2) through (4), the building-to-land ratio or the number of floors and height of a building may be separately determined as follows: <Amended on Jul. 16, 2020>

1. Where an improvement plan is formulated or modified for an improvement zone for a residential environment improvement

project, the building-to-land ratio or the number of floors and height of a building may be separately determined, within such extent that its building-to-land ratio does not exceed that referred to in Article 54 (1) and that the building is not taller than four floors and 16 meters;

2. Where the land, for which a district-unit plan is formulated to create a residential environment favorable to low-floor residents, is placed under additional building height restriction of two floors (eight meters) in line with the district-unit plan (Provided, That the height of a rooftop, in the case of a shed roof, and an attic of up to 1.8 meters shall be excluded from the calculation of its height), the building-to-land ratio may be separately determined within the extent of the ratio prescribed in Article 54 (1) in consideration of such factors as the land size and local conditions.
